Dear One Degree Team,

I'm very interested in your Engineer position you have posted on your website. I'm a web developer with experience in Ruby on Rails and Javascript. I'm comfortable working with the whole software stack. Specifically, I have worked with:

- Ruby on Rails as an API, and it's optimization
- Backbone.js front end, including jQuery and pure Javascript
- perl to write features and internal tools
- Linux deployment and as an environment

Please take a moment to look over my resume.

Cheers,

Kelly Price
